RE: FREE Health Screening for Seniors

As we age, the need for health screening tests grows in importance. The possibility of developing diseases such as breast, colon, or prostate cancer increases with age. Early detection is the key to survival. Unfortunately many older people do not obtain the important screening tests due to limited finances.

Free screening tests are available for all Genesee County residents age 60 years and older at the Genesee County Health Department. Tests include: cholesterol, glucose, BUN/creatinine (checks kidney function), Prostate Specific Antigen (PSA) and hemoglobin. Screening is available at the Burton Branch of the Genesee County Health Department, at G-3373 S. Saginaw Street. Vaccines, if needed, are also available. Please call (810) 237-4570 and ask for Senior Adult Health Screening to make an appointment.
